

Monster Scooter

Monster Scooters are a fun way to explore the Swiss mountain scenery with the whole family. With wide tires and handlebar brakes, these scooters are stable and easy to use for anyone with basic biking skills. This guided evening tour begins in the small mountain village of Isenfluh where we take a mountain cable car high into the alpine meadows before descending through the forest on the 45 minute scooter ride. The soft evening light brings new dimensions to the perfect views of the Jungfrau panorama.
